ABOUT THE National Skills Needs List

Australian Government incentive payments encourage employers to offer employment-based training opportunities to enable people to gain and build on their skills. The Australian Government also offers personal benefits to Australian Apprentices to attract more Australians into technical and trade education and improve completion rates.

Eligibility for some Australian Apprenticeships incentives and personal benefits is limited to those in traditional trades identified as experiencing a national skills shortage.

Trades experiencing persistent skills shortage are included on the National Skills Needs List which is based on detailed labour market research conducted by the Department of Education, Employment and Workplace Relations.

The National Skills Needs List is used to determine the eligibility of employers and/or Australian Apprentices for the following Australian Government incentives and personal benefits:

- Support for Adult Australian Apprentices payment
- Tools For Your Trade payments
- Rural and Regional Skills Shortage incentive
- Securing Australian Apprenticeships initiative

As the National Skills Needs List is reviewed regularly, please visit the Australian Apprenticeships website at australianapprenticeships.gov.au for the most up-to-date list.

www.australianapprenticeships.gov.au
Your Life. Your Career. Your Future.
